

Attire Estepona

Malaga

FOUNDATIONS AND STRUCTURE

Constructed in reinforced concrete in accordance with current regulations.

EXTERNAL FAÇADES

External wall enclosure formed by brickwork, finished externally with render and paint, incorporating internal thermal insulation and an internal lining of plasterboard partitioning fixed to a metal profile system.

Terraces will feature protective parapet walls with a combination of brickwork, glazing and metal framework in line with the façade design.

ROOFING

Non-accessible inverted flat roof finished with gravel.

Accessible flat roof finished with non-slip exterior-grade ceramic tiling, depending on the property type.

EXTERNAL JOINERY

Window and door frames set within metal subframes in façade openings, in aluminium with thermal break or PVC, incorporating glazing to provide thermal and acoustic performance in accordance with current regulations.

Bedrooms will be fitted with roller shutters with injected thermal insulation.

Double glazing with an air cavity to ensure high levels of thermal and acoustic insulation.

INTERNAL PARTITIONS

Internal partitions within the property formed using plasterboard on a metal framework, with integrated thermal and acoustic insulation.

Party walls between properties will be constructed using brickwork, with plasterboard dry lining and thermal-acoustic insulation to both sides.

INTERNAL JOINERY

Reinforced entrance door to the property, finished in white lacquer with routed detailing, security ironmongery, external handle and spyhole.

Internal doors with a flat leaf design and horizontal routed detailing, finished in white lacquer, complete with hinges and handle.

Modular fitted wardrobes, hinged or sliding depending on the property type, matching the internal doors, with melamine-lined interior, overhead storage shelf and hanging rail.

PAINTWORK

Interior vertical surfaces finished in smooth emulsion paint in a soft neutral tone.

Interior ceilings finished in smooth white emulsion paint.

FLOORING AND WALL TILING

Porcelain flooring throughout the property.

MDF skirting boards to match the internal woodwork, except to tiled walls.

Non-slip ceramic floor tiling for exterior use on terraces.

Ceramic wall tiling in bathrooms.

Smooth suspended ceilings throughout the property.

Access panel ceiling in the bathroom for the installation of air conditioning equipment.

Combination of smooth emulsion paint and compact panel splashback finish to the kitchen work area, in line with the design.

AIR CONDITIONING AND DOMESTIC HOT WATER

Individual aerothermal system for the production of domestic hot water (DHW).

Ducted air conditioning system with supply grilles in the living room and bedrooms.

BUILDING SPECIFICATIONS

SANITARYWARE AND TAPS

White sanitaryware throughout.
